agreement, €45,000 maximum per lessor, can be taken into account for the tax deduction. For corporation tax, the benefit is granted in the form of a non-refundable tax credit.

2. **VAT and excise: reduced interest on arrears**
The government also wants to align the rates of interest on arrears and default interest for VAT and excise duties with those for income taxes. This means that the 9.6% rate will drop drastically to 4% and 2%, respectively. The high VAT fine for late payment will also be softened, dropping from 15% to 10%. The adjustment of the interest rates, as well as the fine rates, are only valid for the second quarter of 2021.

3. **Lowering the minimum thresholds for VAT refunds**
With effect from 1 January this year, it has already been decided that start-up businesses can apply for a monthly refund of their VAT credit. It is now possible to claim a VAT refund for smaller amounts. The new thresholds are: €400 for periodic declarations, €50 for starters and year-end declarations.

4. **Abolition of the VAT advance and advance payment of professional tax**
The December advance payment of VAT is definitively abolished as from December 2021, which had already happened on an ad hoc basis in December 2020. What is new is that at the same time the December advance to the withholding tax on earned income (art. 412, paragraphs 4 and 5, CIR 92) is also abolished.

5. **Circular 2021 / c / 20 on employer’s interventions for home work**
The lump-sum reimbursement of the employer’s own expenses up to a maximum amount of 129.48 euros is generalised. The administration will now also accept this outside the context of the corona pandemic.
